White House Symposium on Elder Abuse on June 14th

To commemorate the 7th annual World Elder Abuse Awareness Day, the White House Office of Public Engagement, in collaboration with federal partners from the Administration for Community Living/Department of Health and Human Services, the Consumer Financial Protection Bureau and the Department of Justice, is hosting a day-long symposium on June 14, 2012. The event will highlight the problem of elder abuse, neglect and exploitation.

This White House event provides a wonderful opportunity for your organization to host your own World Day event. The day will be divided into four sessions to be webcast live on the White House website (<http://www.whitehouse.gov/live>). The day will feature speakers from the federal government, national banking institutions and leading elder abuse experts from around the country. As part of your World Day commemoration, please consider hosting a “Watch Party” to broadcast any of the four sessions: 9:00 a.m.-9:45 a.m. - Opening Session; 9:45 a.m.-11:30 a.m. - Panel on Prevention of Financial Exploitation; 1:30 p.m.-3:15 p.m. - Panel on Responses to Financial Exploitation; and 3:30 p.m.-4:00 p.m. - Closing Session. You can also ask the panelists questions on Twitter with the hashtag [#WHChat](#)

CMS Announces Private-Sector Commitments to Improve Primary Care for Patients, Save Money for Medicare

Eight states will test unique investment in coordinated care

In a strong show of support for more effective, more affordable, higher quality health care, 45 commercial, federal and State insurers in seven markets recently pledged to work with the Centers for Medicare & Medicaid Services (CMS) to give more Americans access to quality health care at lower cost. The markets with signed agreements include: Arkansas, Colorado, New Jersey, Oregon, New York’s Capital District-Hudson Valley Region, Ohio’s and Kentucky’s Cincinnati-Dayton Region, and greater Tulsa, Oklahoma.

Under the Comprehensive Primary Care initiative, CMS will pay primary care practices a care management fee, initially set at an average of \$20 per beneficiary per month, to support enhanced, coordinated services. Simultaneously, participating commercial, State, and other federal insurance plans are also offering an enhanced payment to primary care practices that provide high-quality primary care.

Approximately 75 primary care practices will be selected to participate in the Comprehensive Primary Care initiative in each designated market. Interested primary care practices in each of the markets should complete the application pre-screen tool online at the Innovation Center’s website. This is the first step

in applying for the program. To access the application pre-screen tool, please go to: <https://cmsgov.secure.force.com/cpci/cpciscreening>

Funding Opportunity

New Round of Consumer Assistance Grants

Will give states more resources to help consumers get and keep health coverage

Health and Human Services (HHS) Secretary Kathleen Sebelius announced last week a new round of funding to support state-based Consumer Assistance Programs (CAP). In October of 2010, CAP grants were awarded to 35 states, the District of Columbia, and four territories.

CAP grantees, which can be state agencies or local non-profits contracted by a state, provide a wide variety of services for consumers. They can help consumers find health coverage and file appeals against health plans. For individuals unsure about their rights, Consumer Assistance Programs can educate them to take action. To provide better assistance with future requests, Consumer Assistance Programs are required to track consumer complaints to help identify problems and develop solutions.

The funding opportunity announced last week ensures that CAP grantees, whether operating in state agencies or as local non-profits, can continue to strengthen and enhance ongoing efforts in the states and local communities to protect consumers.

The application deadline is July 9, 2012.

For the new Funding Opportunity Announcement, visit: <http://www.grants.gov>, and search for CFDA number 93.519.

For more information on CAP Grants, including a map that shows what support is available in your state, visit: <http://www.healthcare.gov/law/features/rights/consumer-assistance-program/>

ACL Funding Opportunities through ADD

Projects of National Significance: Community of Practice for Supporting Competitive Integrated Employment for Individuals with I/DD

The Administration for Community Living's Administration on Developmental Disabilities (ADD) recently announced the availability of Fiscal Year (FY) 2012 funds for a cooperative agreement authorized under Subtitle E of the Developmental Disabilities Assistance and Bill of Rights Act of 2000, Projects of National Significance.

Funds will be awarded to build capacity across and within states through State consortia, to create and share policies, practices and systems that support competitive, integrated employment outcomes to support individuals with intellectual and developmental disabilities (I/DD). The Community of Practice (CoP) under this funding opportunity announcement (FOA) will work to provide information including the identification of emerging and promising practices in the area of competitive integrated employment across States, establish and maintain mechanisms to share and disseminate data, develop ideas to address competitive integrated employment challenges in states, provide quality peer to peer technical assistance, and promote interagency collaboration and partnership. The partnerships will include key State and local partners in a way that promotes culturally competent information and facilitates self-determination to promote effective systems change efforts in the area of competitive integrated employment for individuals with I/DD.

The application due date is July 10, 2012.

Projects of National Significance: Data Collection and Information Dissemination on Residential and In Home Services for Persons with Developmental Disabilities

The Administration for Community Living's Administration on Developmental Disabilities (ADD) recently announced the availability of Fiscal Year (FY) 2012 funds for a cooperative agreement authorized under Subtitle E of the Developmental Disabilities Assistance and Bill of Rights Act of 2000, Projects of National Significance.

Funds will be awarded to collect, analyze and report on data to describe services and supports for persons with developmental disabilities. The purpose of this project is to conduct a national study that analyzes and describes where people with developmental disabilities receiving, State and non-State,

Medicaid-funded and non-Medicaid funded residential services are living in the United States (U.S.). Through an analysis of State-level data on residential settings specifically for persons with developmental disabilities, such as the number of people living in a facility and the cost per setting, the study shall describe annual outlooks and longitudinal trends in State and non-State residential facility populations, the movement of people with developmental disabilities from institutional settings to homes of their own, and residential service utilization.

The application due date is July 20, 2012.

NASHP Webinar on *States Prepare for Medicaid's Growth Spurt*

Throughout the year, the National Academy for State Health Policy (NASHP) is pleased to present national webinars on health policy issues. All NASHP webinars are accessible on this page. The next discussion topic will focus on *States Prepare for Medicaid's Growth Spurt*.

The Affordable Care Act sets a new national floor for Medicaid coverage. By 2019, Medicaid is estimated to cover an additional 16 million of the most vulnerable Americans, significantly increasing the shape and size of the program. Getting ready for this growth spurt is largely in the hands of states.

Date: Wednesday, June 20, 2012

Time: 2:30 p.m.-4:00 p.m. Eastern

During this webinar, officials from three states will provide a closer look at what states are doing to prepare. They will answer questions like:

Who is likely to enroll and how did the state make these estimates?

How are existing eligibility categories expected to change?

How will Medicaid integrate with the insurance exchange?

How is Medicaid addressing benchmark plan design and access to services?
What are strategies to involve stakeholders in this process?
